

Newbold Community Growing Together

Vision Statement

Our vision is to create an all-year round community garden, where everybody within walking distance may enjoy a safe, open and welcoming space.

Where socialisation and interaction with the natural habitat go hand in hand. A community that is able to enjoy coffee mornings, chats, picnics, vegetable growing, planting gardens and enjoying the benefits of educational classes that would include financial budgeting, homework support, cooking and baking and language classes.

A community shop would be onsite to distribute fresh produce, homemade cakes and low priced necessities to promote wellbeing and dignity.
